Education

Chandigarh Group of Colleges, Landran

Bachelor of Technology in Computer Science (IoT, Cybersecurity, Blockchain)

Aug 2023 – Present

Mohali, Punjab

Kendriya Vidyalaya 33 FAD, Dappar

XII

May 2023

Dappar, Mohali, Punjab

Projects

Intrusion Detection System (Hybrid IDS with SIEM Dashboard)

Jan 2026

Tech Stack: Python, Scapy, FastAPI, WebSockets, HTML, Tailwind CSS, ECharts

- Developed a hybrid Intrusion Detection System to detect cyber attacks from live network traffic & offline PCAP analysis.
- Built a real-time SIEM dashboard using Python, FastAPI, Scapy, WebSockets, and ECharts for threat monitoring.
- Implemented MITRE ATT&CK mapping, incident reporting, attack visualization, and comprehensive threat analytics.

Altair – AI Document & Media Processing Platform

June 2026

Tech Stack: React, Vite, FastAPI, Python, Electron, Microsoft MarkItDown, Whisper, OCRmyPDF, Tesseract OCR

- Developed a desktop AI document processing platform to convert documents, images, audio, video, and YouTube content into AI-ready Markdown, TXT, and JSON.
- Built the application using React, FastAPI, Electron, Microsoft MarkItDown, Whisper, OCRmyPDF, and Tesseract for local, privacy-focused processing.
- Implemented OCR, AI summaries, batch conversion, document analytics, RAG-ready exports, conversion history, and cross-format export capabilities.

FutureGuard – Student Dropout Risk Prediction System

September 2025

Tech Stack: React.js, JavaScript, Node.js, MongoDB, FastAPI, Python, Machine Learning

- Developed a full-stack ML platform to predict student dropout risk using academic and behavioral data.
- Built the system using React, Node.js, FastAPI, Python, MongoDB, and REST APIs for seamless predictions.
- Implemented role-based dashboards, explainable AI insights, CSV import, and institute-level analytics.

Spotlight – Event & Performer Booking App

Nov 2025

Tech Stack: React Native (Expo), JavaScript, Node.js, Express, MongoDB, REST APIs, React Query

- Developed a full-stack mobile platform connecting event organizers with performers for seamless event bookings.
- Built the application using React Native, Node.js, Express, MongoDB, REST APIs, and React Query.
- Implemented secure authentication, real-time chat, OTP verification, booking workflows, and performer portfolios.

Technical Skills

Languages: C, C++, Python, JavaScript, SQL

Developer Tools: Git, GitHub, Android Studio, VS Code, Postman

Technologies & Frameworks: React.js, React Native (Expo), Node.js, Express.js, FastAPI, Flask, Tailwind CSS, REST APIs, WebSockets, Scapy, ECharts, MongoDB, MySQL, SQLite, Supabase

Certifications

- Complete Arduino Course for Beginners
- Basics of Cloud Computing - Fundamentals of Cloud Computing
- Python with Data Science – NPTEL

Extra Curricular

- Semifinalist, Smart India Hackathon 2024
- Winner Squid-O-Tech Hackathon
- 5th Position, National Science Day Competition
- Participant, Bolt.New World's Biggest Hackathon
